

Before the disastrous 2003 decision to weaken media ownership rules (which a federal court has now overturned), you held only one official public hearing. Further, FCC officials met behind closed doors 71 times with major broadcasters – but only five times with public interest groups. And to justify your actions, you used deceptive, industry-sponsored research data.

The will of Big Media had been heeded at the expense of American citizens and democracy itself. This has to end. Before you rewrite the ownership rules, I demand an official public FCC hearing in my state, impartial and verifiable research, and transparent debates.

It is time to put the needs of democracy – a diverse, skeptical, independent and competitive media system – ahead of profit-hungry media giants.

I think individual comments are important in the process; the airways belong to the public & the media utilizing this public asset must be responsible to the public's wishes & input. The media has public service responsibilities and obligations. Of particular concern to me is the WLOS charter in western NC. They do not represent local NC views and are NOT responsive to the public concerns & input.

I call on you to hold an official public hearing in NC. Thank you.
